Your Honor,

Microsoft must be forced to play by the same rules as everyone else, and the proposed final judgment before your court fails to accomplish that. I ask you to reject it.

For years, strong-arm tactics on Microsoft's part have cut down promising high tech companies and hurt innovation here in Silicon Valley. The courts have ruled against Microsoft--now let's bring about a solution that actually causes them to cease their anti-competitive activities!

I am also concerned that Microsoft's monopoly would only be broadened by the giving of its software to schools. It costs the company virtually nothing to do so, yet the harm to competitors like Apple is enormous. Please vote against the PFJ.
